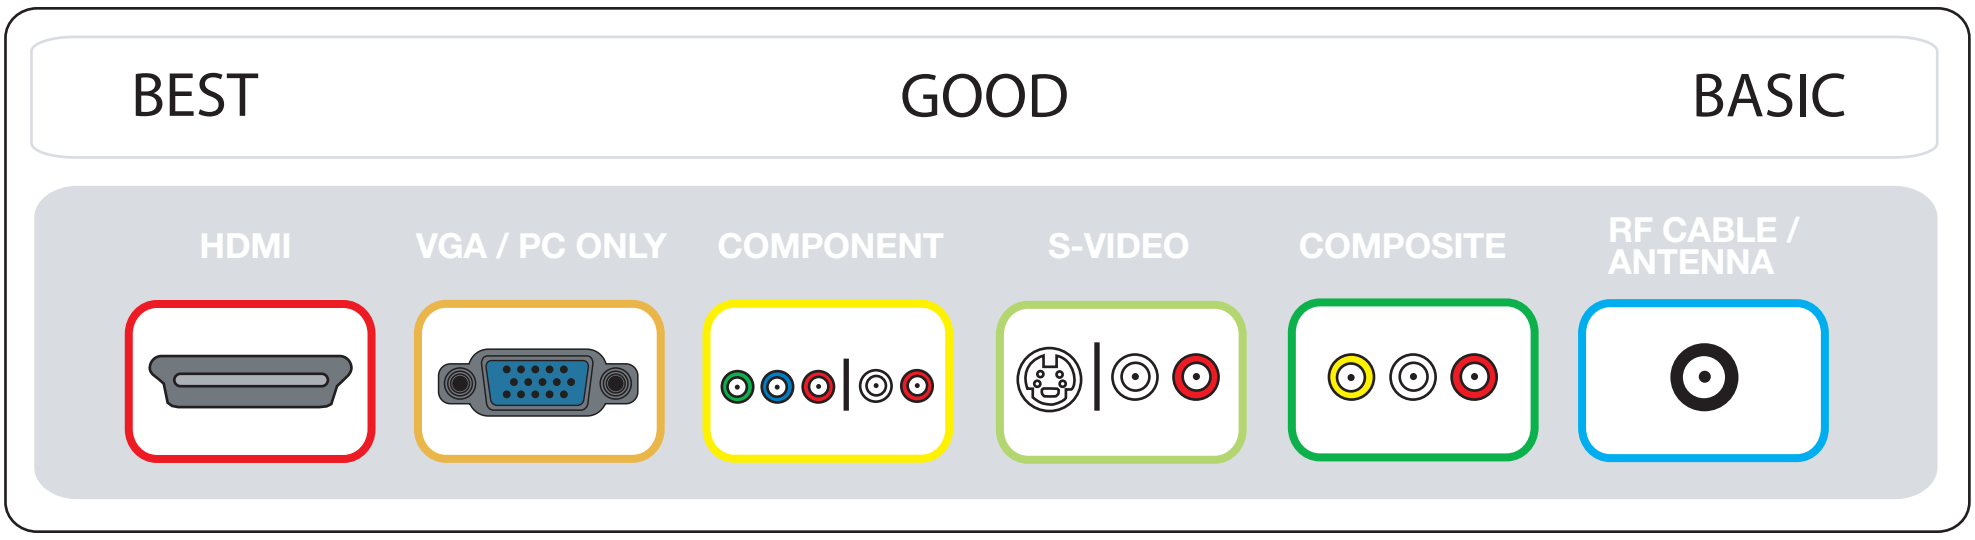
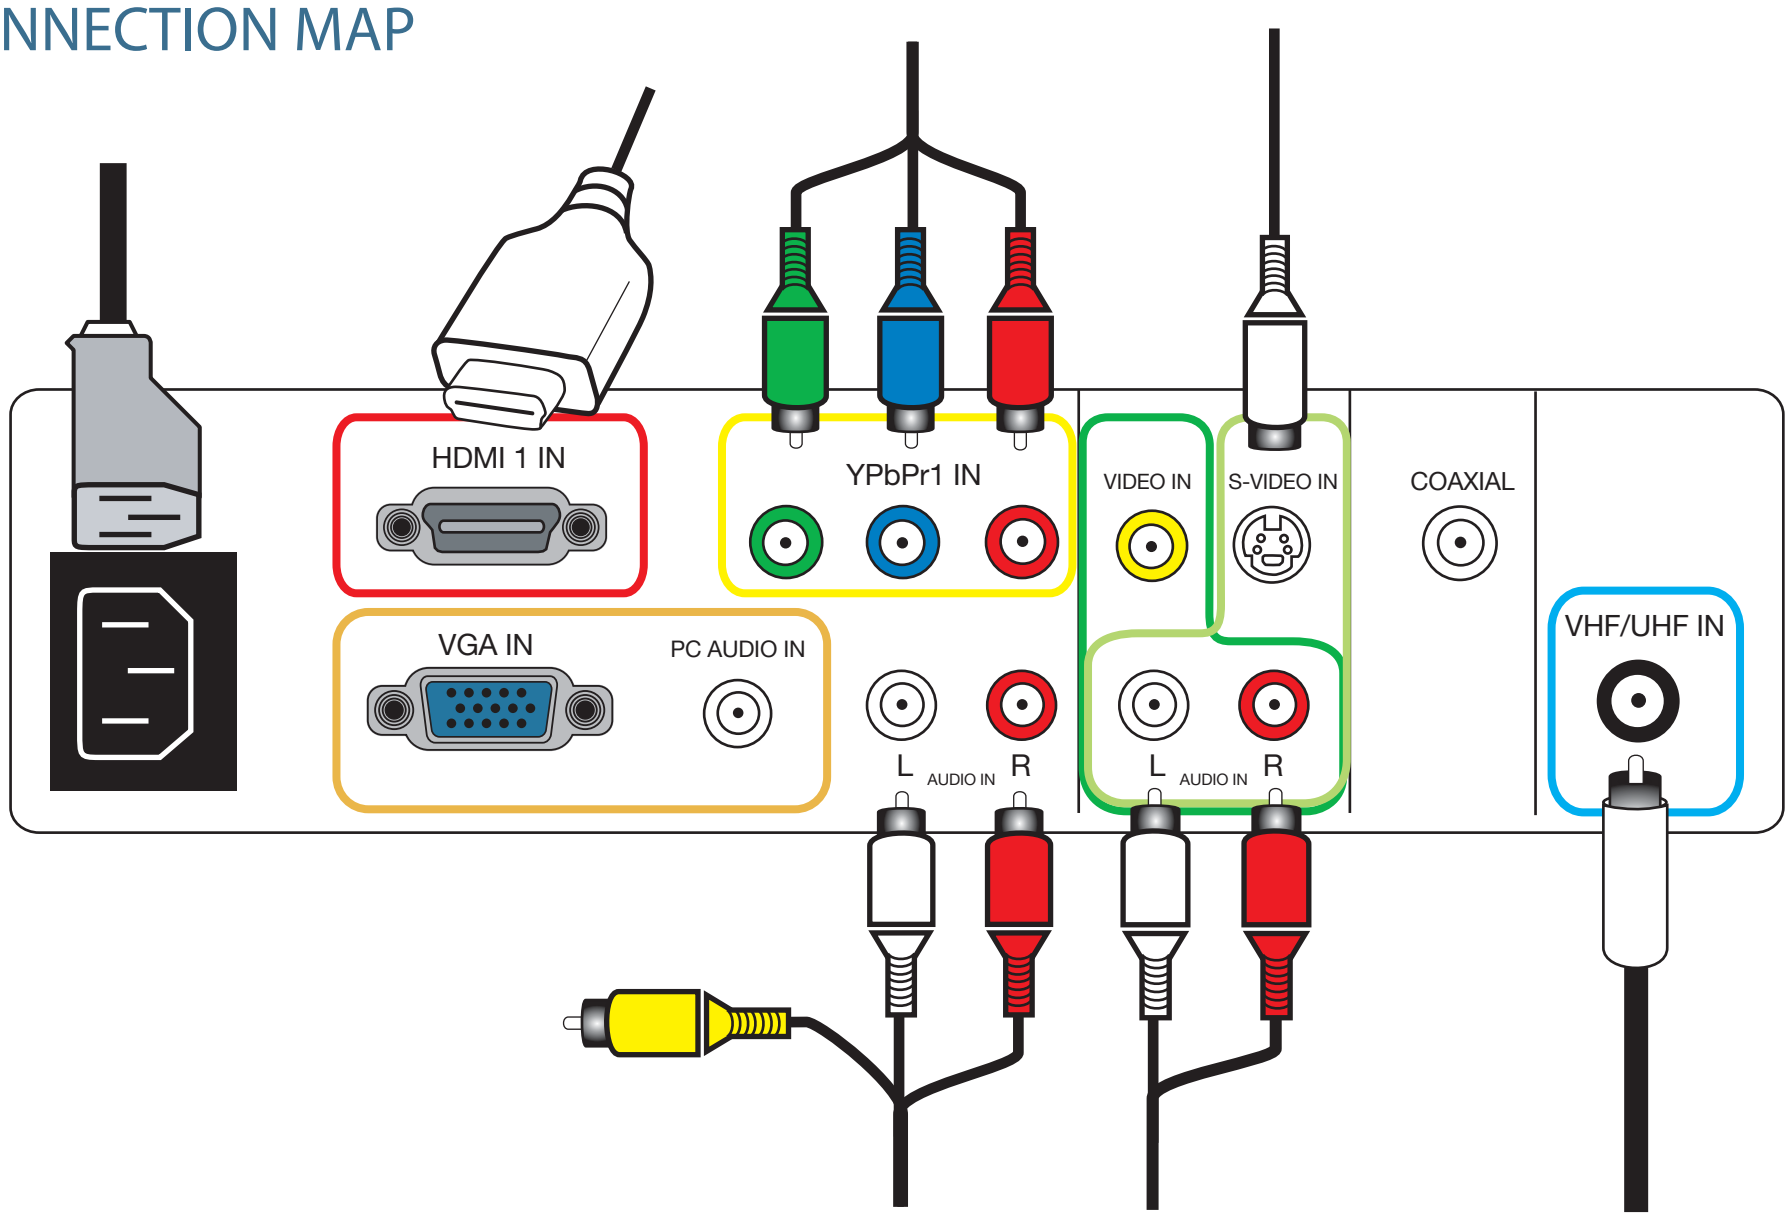
THE BEST CONNECTION

We highly recommend you use the HDMI input whenever possible to receive an incredible High Definition picture.
Please keep in mind, however, that not all A/V devices are capable of this type of connection.

For the best viewing experience, connect your Element TV to an HD digital cable/ satellite box, HD DVD player and/or other HD A/V device using the HDMI connection.
Make sure your external A/V devices are set to output an HDMI signal. Consult you're A/V device's User's Manual for instructions on how to output an HDMI signal.



CONNECTION MAP



If you need help, please consult your User's Manual, visit **www.elementelectronics.com**, or call **1-866-217-5783** for assistance.
